Aman Pareek
Node.js Developer | Jaipur

+91 8741803887
amanpareek300@gmail.com

Passionate, self-taught backend developer specializing in Node.js, with expertise in creating robust REST APIs. Developed AP-SSG to automate web development and optimize performance.

Projects

AP-SSG
github.com/Amanp30/ap-ssg

- Published an npm package with 1000+ installs for generating SEO-optimized HTML pages with JSON-LD, sitemaps, minified assets, and PWA support.
- Integrates with Google Analytics, GTM, and Hotjar, offering CLI and programmatic builds.
- Optimized for production efficiency, superior SEO performance, and developer-friendly workflows.

TradeBook
mytradebook.vercel.app

- Developed a responsive React app with dark mode for tracking intraday profits, logging trades, and generating detailed profit/loss summaries.
- Integrated a trade calendar (like Zerodha Kite) and performance charts to visualize profits and losses, utilizing MongoDB aggregation for analytics.
- Used Redux for efficient sidebar management and navigation, and built robust REST APIs with Express.js for seamless trade data handling.

Personal Website
amanpareek.in

- Published an SEO-optimized website showcasing 110 tested LeetCode solutions along with a dedicated blog for sharing insights and updates.
- Built a custom React.js dashboard for managing solutions and blog content, integrated with custom APIs developed using Express.js, Node.js, and MongoDB.
- Implemented robust testing workflows by utilizing Jest for unit testing all solutions, ensuring accuracy, reliability, and maintainable code quality.

Education & Courses

Bachelor Of Computer Application
2019 To 2022

Shri Jain College, Kekri (Affiliated With Maharishi Dayanand Saraswati University, Ajmer)

12th Standard
2018
